

SOAP AID'S HEALTHY HANDS AMENITIES RANGE

Supporting Soap Aid's mission to provide critically needed hygiene supplies and education to vulnerable communities in Australia, New Zealand and overseas.

SOAP AIDTM
SAVING LIVES

A close-up photograph of four young children of South Asian descent, wearing light blue school uniforms. They are all smiling and looking towards the camera. The child in the bottom left is looking slightly to the right, while the child in the bottom right is looking towards the center. The background is blurred, showing more children and what appears to be a school setting.

WHY WE EXIST

1.4 million children under the age of five die each year due to preventable childhood infectious diseases including diarrhea and pneumonia. 40% of these deaths could be avoided by improved hygiene and particularly, hand washing with soap.

Soap Aid is a DGR1 registered Australian based Not-for-Profit and Social Enterprise

Through our Hotel to Hands program, we collect and recycle waste hard soap bars from accommodations across Australia and New Zealand.

We distribute our recycled soap bars free of charge to communities in need alongside hygiene education resources.

Soap Aid receives a royalty from each Soap Aid amenity bought. Royalties support us to supply our free recycled soap bars to communities around the world.

SAVING LIVES THROUGH IMPROVED HYGIENE

HEALTHY HANDS

Hand washing with soap is a simple and effective way to keep people from getting sick and to stop the spread of germs.

Our product range supports everyone practicing good hand hygiene anytime, anywhere, helping to keep our communities healthy and stopping the spread of infectious diseases like Covid-19.

BATH & BODY COLLECTION

Soap Aid's new bath and body collection are made with skin loving and vegan friendly formulations packaged in contemporary and on trend designs.

Our eye catching residential bottles are made from 100% recycled plastic and available in refillable bottles to reduce virgin plastic use. All bottles and caps are fully recyclable too.

SAVE LIVES. USE THIS SHAMPOO AND
JOIN THE MOVEMENT!

The background of the image is a dense, overlapping arrangement of dried blood orange slices. The slices are circular, showing the characteristic segmented structure of the fruit. The color of the segments is a deep, rich red, while the surrounding pulp and the outer rind are a bright, vibrant orange. The lighting is even, highlighting the texture of the dried fruit and the intricate patterns of the segments.
